

Big City Engineering Pvt. Ltd.

MS Container office & Prefab Accommodation

Company Introduction:

- ▶ Big City Engineering was established in Tughalkabad, New Delhi, India in the year 2019. The company started out as a very small operation with a few workers producing small Security Guard Cabins. Since then, Big City Engineering has significantly grown in size and capabilities to become a leading industrial manufacturer in the region for different products. Big City Engineering products and services have reached many parts of India.
- ▶ Throughout its operations, Big City Engineering has adopted state-of-the-art manufacturing technologies and has pioneered new manufacturing methods to bring customer requirements to reality; all while maintaining the highest quality standards. Big City Engineering possesses several accreditations for its product ranges and operational procedures from the most globally acknowledged and reputed quality standards institutions.

Big City Engineering product portfolio grew over the years to form MS Container Office & Prefab Accommodation:

Big City Engineering

- ▶ The MS Container Office & Prefab Accommodation unit manufactures both standard and custom-designed MS Portable Container office, store Room, Porta Cabins, Security Guard Cabins, Prefab Portable Buildings, Portable office cabinets and other type of Portable cabins for temporary and permanent use, as well as complete interior fit-outs and Exterior.

► **Mission, Vision & Values:**

- Big City Engineering logo, although symbolic of the first Big City Engineering product embodies the core missions and values being promoted internally as well as to customers: The first is “Strength”, and it is reflective of our staff’s technical capabilities as well as our high-quality engineered products. The second is “Efficiency” and it is indicative of Big City Engineering mode of operation which allows a lot of flexibility in delivery time, design, and cost vis-à vis clients. The third is “Friendliness” and it is a value Big City Engineering prides itself on given the long-term relationships with both clients and suppliers.

MS Container Office & Prefab Accommodation:

- ▶ The Prefab Division manufactures different products as per the customer requirements. Simple temporary solutions are available, as well as more sophisticated and specialized solutions for more long term uses. Big City Engineering Prefab units can be manufactured to meet specifications required by any authority or auditing party. The prefab products can be built in self contained transportable units for easy shifting, or can be built onsite on top of a concrete base/floor. The walls can be made of Cement Fibre Board insulated panels, other composite panels, or any other panel type as per the customer requirements. Some of the product ranges include Site Offices, Accommodation, Ablutions, Kitchens & Halls, Guard Houses & Kiosks.

MS Portable Office Container:

MS Container Office Cabinet:

MS Container Office Cabinet:

Prefab Site Offices:

- ▶ Site Offices can be manufactured as per the design of the customer (standard designs are also available). Site Offices can be built from single or multiple joined units, and in single or multiple stories. Internal room divisions are structured as per customer requirements. Toilets and Kitchens/Kitchenettes can also be incorporated into site office units. Internal finishing of site offices can be simple as well as of very high standards, based on the requirements of the customer.

Prefab Guard Cabin & Kiosks:

- ▶ Guard Houses & Kiosks can be manufactured as per the design of the customer (standard designs are also available). Guard Houses & Kiosks are built as independent self-contained units since they are usually small in size. Kiosks can be used for different purposes, such as control rooms, canteens, and enclosures.

Prefab Accommodation:

- ▶ Accommodation units can be manufactured as per the design of the customer (standard designs are also available). Accommodation units can be built from single or multiple joined units, and in single or multiple stories. Internal room divisions are structured as per customer requirements. Toilets and Kitchens/Kitchenettes can also be incorporated into accommodation units. Internal finishing of accommodation units can be simple as well as of very high standards, based on the requirements of the customer. As such, accommodation units can be configured to suit local laws and preferences for both workers and staff of different hierarchical levels.
